

La 'barbie humana' se opera los párpados para parecer menos china

Ella misma presume de ser una 'barbie humana'. Se llama Ophelia Vanity, tiene 30 años y aunque es de Los Ángeles, en California, tiene raíces chinas.

Y eso no parece gustarle demasiado para parecerse aún más a la mítica muñeca,

por lo que se ha gastado 4.000 dólares en una cirugía de sus párpados para «parecer más caucásica», como su icono, según publica [Daily Mail](#).

Es toda una estrella en [Instagram](#), donde cuenta con más de 75.000 seguidores.

Para tener esta imagen, se ha sometido ya (y que haya reconocido) a una rinoplastia e inyecciones mensuales de Botox y rellenos para mantener su apariencia de muñeca.

So sorry for my absence! I've been busy recovering from 2 major plastic surgeries ☹️ I'm also thinking of getting lip implants instead of spending \$500 a month on injections. Yay or Nay? ☹️ I also filmed

another documentary, so this will be my 5th one and its for @barcroft_tv - Also just ordered my @cocoalocksofficial and I cannot wait for it to arrive!

This is one of my ensembles for the autumn season ☺☺ - Platforms by @currentmoodclothing from @dollskill, Skirt from @lolita_kawaiishoes, Shirt from @bananarepublic, Hat from @wish ☺☺ - PLEASE send me your prayers & best wishes! ☺☺ This is the 2nd time within 6months that I'm obligated to evacuate after another huge, dangerous wildfire has spread to my exact location. California also declared it as a national emergency; it's been less than a day and 50K+ acres have already burned, 200 homes destroyed, and helicopters aren't even able to fly or help in this windy condition! There's been 0% containment thus far and is only spreading to more areas. ☹ I'm seriously hoping my house will be ok, otherwise I'm dead ☹ I'm sorry but there's no other way to put it. I've had to start over 5x in my past, yet there's no comparison as I'll have absolutely NOTHING left. I don't have fire insurance, \$\$, nor the emotional & physical state to deal with such an unforeseen tragedy. #wildfire

Y si ya te parece una auténtica 'barbie humana', debes saber que Ophelia dice

que todavía tiene la intención de ponerse unos implantes mamarios y vaginales, blanquear su piel, e incluso, se está planteando eliminar entre cuatro y seis costillas para lograr una cintura muy pequeña.

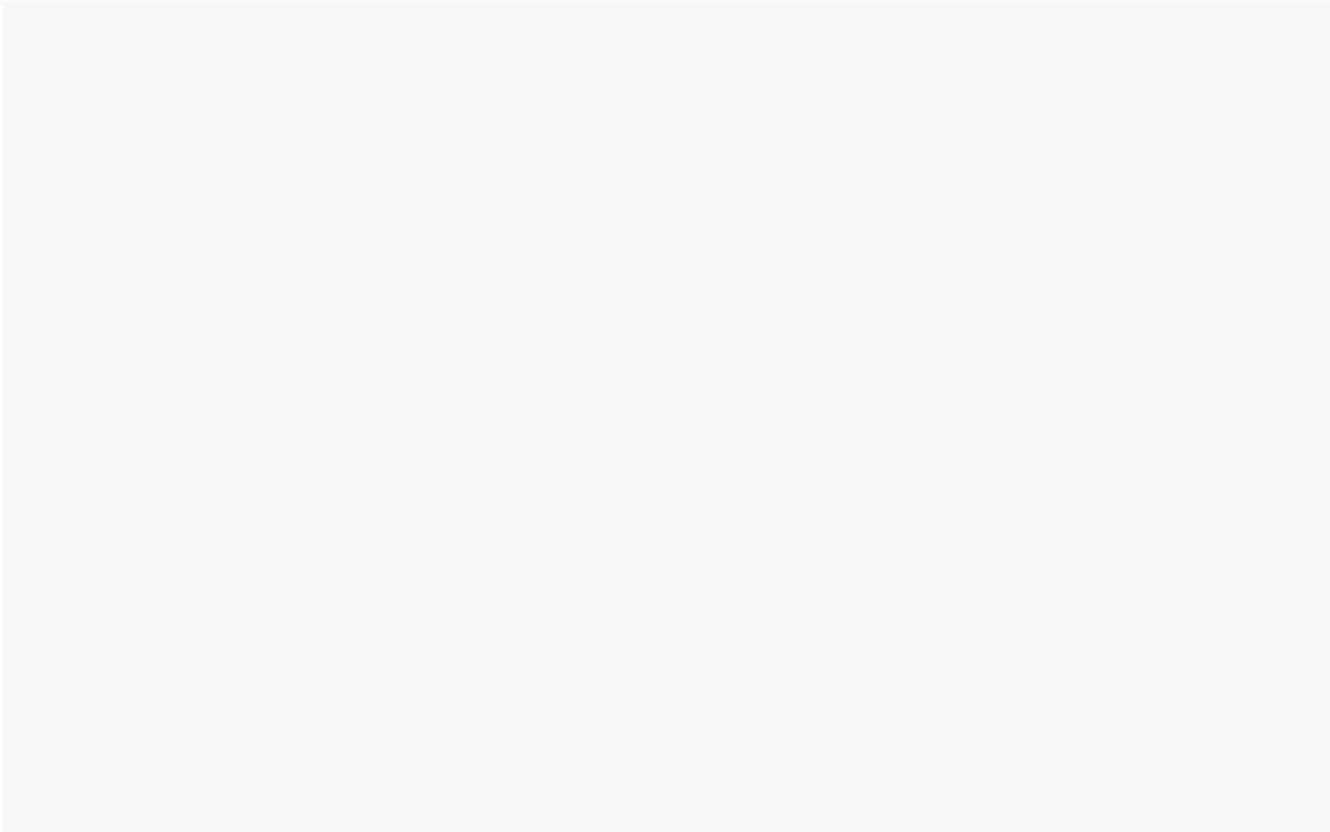

My fur baby Dubi & I in happier times before the fire ☹️ I love my platform heels by @ironfistclothing - they are partnered with Care Bears 🐻 (I used to love/collect them!) and even have a donut pattern, lol 🍩 . !!!IMPORTANT!!!Please read my previous post or go to my GoFundMe in my bio for more details! You can also donate to my PayPal (opheliavanity22@gmail.com) since GFM takes a 15% fee. Either method is fine though and I'd be eternally grateful 🙏 Seriously, ANY amount would help! And if you're unable to donate, PLEASE at least share my GFM link or repost this. . To be honest, I'm pretty disappointed.

73K+ followers on my social medias doesn't mean shit when most people won't even forego ONE less \$5 cup of coffee. ☹️ Surprisingly, those who've helped and been the most supportive are friends of @officialkittiebooboo!! ☹️ Times like these truly show who your friends are... . Boo Boo & Dubi are my WORLD and their welfare means more to me than my own. That's why I'm putting aside my own needs at this point (new washer/dryer, replacing my ruined clothes, etc) to focus solely on them. I raised enough to send Boo Boo to the vet (where we're actually waiting right now). I just REALLY hope there's no permanent damage, as he suffered severe smoke inhalation and almost suffocated to death during the fire ☹️ Also, most times the medication is actually more expensive than the vet visit itself, so I still need donations for that as well as Dubi's appt. I hate to "choose," but Boo Boo IS my pet after all, whereas Dubi's technically the "neighbourhood cat." Though it's not like it makes much of a difference, since all the responsibility of food, litter, carrier cages, vet visits, etc., fall on us and the most the neighbours do is pet or give him some water once in a while ☹️ . Is \$5-\$15 really going to bankrupt you?? I completely understand if you're going through difficult times as well, but it doesn't cost any \$\$ to simply share my GoFundMe link and/or repost this. Thank you and my prayers also go out to the victims of Hurricane Irma and the Mexican earthquake ☹️☹️

NO EDIT/FILTER ✖ Most of my selfies are straight-on, as I hate my profile view... I have a flat face and this tiny, upturned nose due to my Asian side. I've only ever had non-surgical rhinoplasties, but really need a permanent one. I do like my lips and this pretty lace choker with pearls though. ☺
