

Lo último de la moda más

extravagante: las pelucas vaginales

¡Cuántas mujeres habrán pensado al ver la última moda por qué se habrán gastado un dineral en depilación láser! Ojipláticas nos quedamos al ver el último grito en las pasarelas: las pelucas vaginales.

Sí, que sí, que no se nos ha ido la pinza (al menos a nosotros). La moda más extravagante vuelve a sorprendernos. En esta ocasión viene de la mano de una diseñadora surcoreana llamada Kaimin. Su propuesta es que las mujeres salgamos a la calle sin ropa interior y tapar nuestra zona más íntima con unas peculiares pelucas vaginales.

Según publica [Mirror](#) en su edición digital, no es algo nuevo. El peculiar complemento (por llamarlo de alguna manera), se remontan al siglo XVII, cuando las mujeres de la noche las usaban después de afeitarse el pelo por razones de salud.

En una [nota de prensa de Kaimin](#) explican que estas pelucas vaginales se crearon «para ayudar a las siluetas irregulares» y «para cerrar la brecha entre duro y suave».
