Claims Army Is Stacking Courts Martial

Indiana Senator Lays Protest Before Patterson

Washington, July 8 (AP)—Senator Joseph R. Eastland, Republican of Mississippi, today said that "the Army is stacking courts martial in order to avoid the stigma of a court martial."

In a letter to Secretary of War Patterson regarding a bill of indemnity for military personnel, Eastland stated that the bill was "a piece of legislation which is a disgrace to the military profession."

"I believe that the Army is stacking courts martial in order to avoid the stigma of a court martial," Eastland said.

El supuesto incidente OVNI de Roswell cumple 71 años

Esta semana se cumplen 71 años del Caso Roswell, referido al presunto choque de una nave de origen no terrestre, -un globo según la versión oficial-, cerca de la ciudad de Roswell en Nuevo México.

En concreto, el 8 de julio de 1947 se publicó en prensa el anuncio por el ejército de Estados Unidos de la «captura» de restos de un 'platillo volante' en un rancho cerca de Roswell. El oficial de comunicación de la base aérea del Ejército en Roswell, Walter Haut, emitió un comunicado de prensa indicando que el personal del Grupo de operaciones 509 había recuperado un «disco volador», que se había estrellado en un rancho cerca de Roswell.

Los antecedentes del caso se remontan al mes de junio. Mac Brazel, un granjero de Nuevo México, descubre unos restos dispersos por su rancho cerca de Corona, Nuevo México, y el 5 de julio da cuenta a las autoridades. Tras la publicación del

comunicado militar el 8 de julio, y la visita a la zona de un alto mando militar, la versión cambia y se atribuyen los hechos al impacto de un gran globo del Proyecto Mogul, con el que Estados Unidos pretendía espiar a la URSS. Varios informes militares posteriores corroboraron esta versión.

Hasta 1978, el incidente de Roswell recibió poca atención, hasta que los investigadores Stanton T. Friedman y William L. Moore compararon los resultados de una serie de entrevistas que cada uno había llevado a cabo por separado. La versión oficial del globo quedaba en evidencia, y se abría paso la hipótesis del accidente de una nave de origen no terrestre, con la recuperación de varios cadáveres de alienígenas.

El astronauta del Apolo 14 Edgar Mitchell, aunque no fue testigo directo, también ha afirmado en numerosas ocasiones que Roswell fue un verdadero incidente relacionado con seres de origen no terrestre, basado en sus contactos de alto nivel dentro del gobierno. «Yo he visto los expedientes secretos OVNI, y no hay duda de que hubo contacto con extraterrestres», dijo.

Este astronauta opina también que hay una organización gubernamental paralela e independiente al gobierno que realiza experimentos con tecnología extraterrestre «y por eso no se pueden sacar a la luz todos estos incidentes». Mitchell murió en 2016 sin haber facilitado ninguna evidencia que corrobore sus afirmaciones.

Según Wikipedia, el suceso se considera como el nacimiento de la ufología moderna y ha dado lugar a numerosos debates, teorías y especulaciones sobre la existencia de vida extraterrestre que otros muchos consideran totalmente infundados, aceptando la versión oficial que hace mención al choque de un globo meteorológico en un contexto de gran secretismo como el de la Guerra Fría. El fenómeno ha tenido un gran peso en la cultura popular y se menciona en numerosas obras de ficción, así como en documentales.
